

## **METAL ZIP TIES CUTTER**

MANUAL NO. 9821

# OPERATION INSTRUCTIONS

1. To wrap a tie strap around an object. (It is recommended to wear gloves when using cable ties and cutters.)

2. Thread the strap through the buckle and tighten.

3. Insert the end of the binding band into the cutter. Hold the cutter's handle in your right hand and repeat the clenching until the binding band is tightened.

4. When the strap is tightened, the left-hand pulls up the cutter to cut it off, and the strap is cut off and moved away from the cutter so that a stainless steel band is installed.

# OPERATION INSTRUCTIONS

1. To wrap a tie strap around an object. (It is recommended to wear gloves when using cable ties and cutters.)

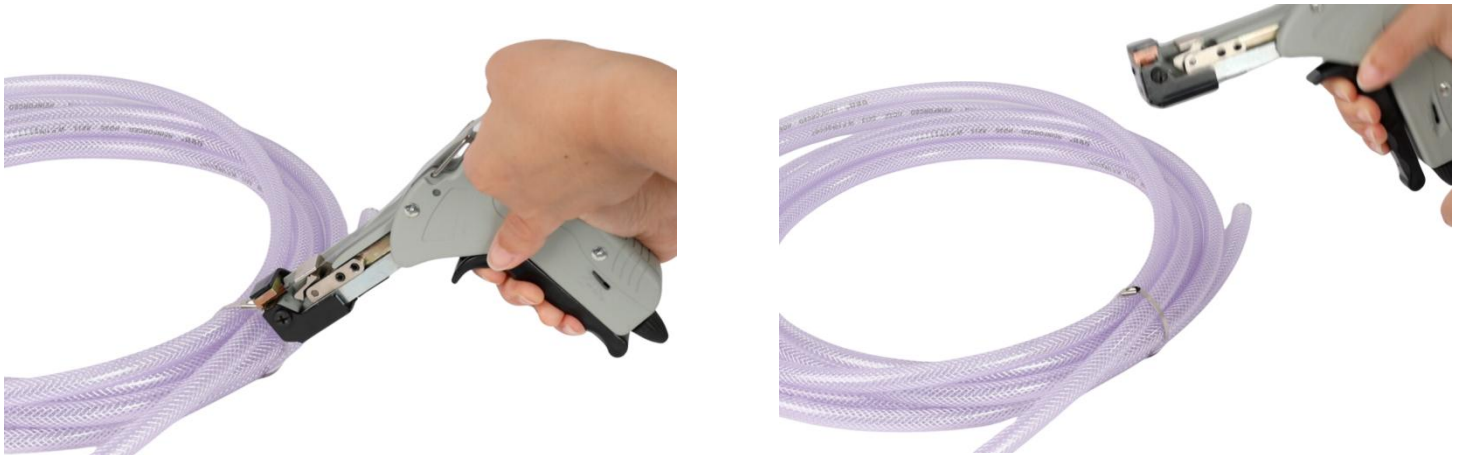

2. Thread the strap through the buckle and tighten.

3. Insert the end of the binding band into the cutter. Hold the cutter's handle in your right hand and repeat the clenching until the binding band is tightened.

4. When the strap is tightened, Grip the handle tightly and cut the cable tie.

### **Four gear adjustment**

**Rotate the knob to adjust different gears according to your needs. Gears 1-4 are for adjusting tension, and gear 4 is the tightest**
